23:1-9. CONSTRUCTION ZONE: TRAFFIC CONTROLS FOR STREET AND HIGHWAY CONSTRUCTION AND MAINTENANCE OPERATION AND ADOPTION OF MANUAL ON UNIFORM TRAFFIC CONTROL DEVICES FOR STREETS AND HIGHWAYS. (Municipal Roads Only)

a. *Controls Established for Construction Zone.* The Governing Body hereby finds and declares that problems of traffic control occur and traffic must be moved through or around street construction, maintenance operations, and utility work, above and below ground which requires blocking the roadway and obstructing the normal flow of traffic; and that such obstructions are or can become dangerous when not properly controlled. In order to better promote the public health, safety, peace and welfare, it is necessary to establish controls and regulations directed to the safety and expeditious movement of traffic through construction and maintenance zones and to provide safety for the work force performing these operations.

The City of Newark, in the County of Essex, State of New Jersey, does hereby adopt the current Manual on Uniform Traffic Control Devices hereafter known as M.U.T.C.D., except as hereby supplemented and amended, as it controls and regulates whenever construction maintenance operations of utility work obstructs the normal flow of traffic. Any person, contractor, or utility, who fails to comply with the provisions of M.U.T.C.D. while performing such work is in violation of this section.

b. *Pre-Construction Meetings.* It shall be the responsibility of the person, contractor, or in the case of a public utility agreement, wishing to conduct work on, under or above the roadway to contact the Director of the Department of Public Safety in order to arrange a pre-construction meeting in order to submit plans for the safe movement of traffic during such period of construction work. Any person, contractor or utility who fails to comply with this section prior to the start of such work or whose plans are not approved by the Director of the Department of Public Safety is in violation of this section.

c. *Hazardous Conditions.* The person, contractor, or utility shall provide the Director of the Department of Public Safety with at least two (2) emergency contact phone numbers to be called in case of emergency problems at the construction or maintenance site prior to the start of any work. If for any reason emergency contact cannot be reached, or if the emergency contact person does not respond to the call from the Director of the Department of Public Safety to correct a hazardous condition, the City may respond to correct such hazardous condition. The reasonable fees for such emergency service by the City shall be charged to the person, contractor, or utility for such condition.

d. *Hours.* There shall be no construction, maintenance operations, or utility work on any roadway in the City before the hour of 9:00 a.m. or after 4:00 p.m. This time limit may be adjusted to permit work prior to 9:00 a.m. or after 4:00 p.m. by the Officer in charge of the Division of Police. If it is determined by the Officer in charge that the construction or maintenance operations prior to 9:00 a.m. or after 4:00 p.m. would substantially delay traffic or cause a safety or health hazard, the work shall then be permitted only between 9:00 a.m. and 4:00 p.m.

e. *Road Closing and Detours.* Road closing and/or traffic detours shall not be permitted unless approved by the Director of the Department of Public Safety.

f. *Traffic Directors.* Traffic directors shall be posted at all construction or maintenance sites when determined by the Director of the Department of Public Safety that same is necessary to provide for the safety and expeditious movement of traffic.

g. *Stop Work.* The Director of the Department of Public Safety shall have the authority to stop work, including the removal of equipment and vehicles, stored material within the street right-of-way, back filling of open excavations and/or other related work, in order to abate any nuisance and/or safety hazard or for any violation of this section.

h. *Site Preparation.* It is to be expressly understood that no materials, vehicle or equipment are to be placed in the roadway or sidewalk or until all construction, signs, lights, devices and pavement markings are installed.

i. *Violations and Penalties.* Any person, contractor or utility who commits a violation of this section shall, upon conviction thereof for a first offense, pay a fine of not less than one hundred (\$100.00) dollars nor more than five hundred (\$500.00) dollars and/or be imprisoned in the County jail for a term not exceeding ninety (90) days. For a second offense, the person, contractor or utility shall, upon conviction thereof, pay a fine of not less than two hundred fifty (\$250.00) dollars and/or be imprisoned in the County jail for a term not exceeding ninety (90) days.

A separate offense shall be deemed committed on each day during or on which a violation occurs or continues.

j. *Inconsistent Regulations.* All ordinances or parts of ordinances which are inconsistent with the provisions of this section are hereby repealed to the extent of any such inconsistency.

k. *Approval by Commissioner of Transportation.* This section shall take effect after approval by the Commissioner of Transportation twenty (20) days after passage and publication as prescribed by law.

23:5-7.1 Suspension of 23:5-7 Prohibitions.

a. *Definitions.* As used in this section:

Director shall mean the Director of the Department of Public Works and/or his/her designated agent.

Division of Police shall mean the Division of Police in the Department of Public Safety.

Public Information Director shall mean the Director of the Office of Public Information and/or his/her designated agent.

b. *Suspension of the Stopping or Standing Prohibition.*

1. Conditions. The prohibitions of Section 23:5-7 are suspended when the Division of Sanitation of the Department of Public Works is either unable or incapable of cleaning the City's streets in total or in part as mentioned in this chapter.

2. Notification to the Division of Police. The Director shall notify the Division of Police that the prohibitions of this chapter are suspended by 6:00 a.m. on the date that the suspension is to be effective.

3. Prohibiting the issuance of summonses. The Division of Police shall not issue any summonses for failure to comply with the alternate side of the street parking prohibition when parking prohibitions are suspended.

4. Maintenance of record. The Director and the Division of Police shall keep record of each date when the street cleaning services are suspended.

5. Notification to the general public. The Public Information Director shall notify the radio stations serving the City of Newark of the suspension of the parking prohibitions of Revised General Ordinances Section 23:5-7.

6. Nothing in this section shall permit the issuance of summonses for violations of the Revised General Ordinances of this City after the streets located within the aforesaid areas are swept.

(R.O. 1966 C.S. § 23:5-7.1; Ord. 6 S+FG, 2-20-91; Ord. 6PSF-A(S), 1-7-16; Ord. 6PSF-M, 5-18-16; Ord. 6PSF-F, 6-15-16)

b. The fine for violation of this subsection shall be fifty (\$50.00) dollars.

(Ord. 6 S+FC, 6-3-87)

23:5-8. "DON'T BLOCK THE BOX" INTERSECTIONS.

a. *Purpose.* Vehicular traffic obstructing critical intersections causes traffic gridlock and effectively prevents traffic to move at congested intersections.

When vehicular traffic obstructs the intersection and "blocks the box" hazardous conditions are created for pedestrians wishing to utilize crosswalks.

"Blocking the box" is the nomenclature given when vehicles enter a street intersection or a marked crosswalk if preceding traffic prevents the immediate clearance of the intersection as defined in title 39:4-67 N.J.S.A.

There are critical intersections in the City of Newark which require special emphasis in order to insure proper traffic movement and to increase safety for pedestrians and motorists alike.

The Municipal Council believes the protection of the public at congested intersections must be rendered as safe as is technically possible.

b. The following designed intersections shall be designated as critical intersections and shall be designated as "block the box" intersections and shall be so signed:

(Ord. 6 S+FG, 4-4-07 §§ Preamble, 1-4)

23:5-9. RESERVED.[12](#)

23:5-10. PROVISIONS OF CHAPTER PREVAIL OVER CONFLICTING PROVISIONS.

If any of the provisions of Title XXXIV Transportation and Chapter 7 of this Title are contrary to any of the provisions of this chapter then, and in that event, the provisions of this chapter shall prevail. (R.O. 1966 § 23:5-10)

23:5-11. IMPOUNDING AND/OR IMMOBILIZING VEHICLES ILLEGALLY PARKED OR SUBJECT TO OUTSTANDING TRAFFIC WARRANTS.

- a. Whenever any member of the Newark Division of Police finds a vehicle upon a public highway in the City and:

1. Such vehicle is parked in violation of Sections 23:5-1, 23:5-2, 23:5-3, 23:5-3.1, 23:5-3.2, 23:5-4, 23:5-6, 23:5-7, 23:6-2, 23:6-3 and 23:6-4 or these Revised General

Ordinances; or

2. Such member has reasonable grounds to believe that such vehicle has been abandoned as defined in N.J.S.A. 39:4-56.5; or is subject to outstanding traffic warrants as defined in N.J.S.A. 39:4-139.13;

Then such member may immobilize and/or move and secure the removal of such vehicle to such garage or place as may be designated by the Director of the Department of Public Safety as a garage or place for the impounding of such vehicles, and such vehicles shall be there retained and impounded until the person owning such vehicle shall pay the reasonable cost of such taking, and/or removal, together with the normal storage charges as set forth in Section 8:19-6 of these Revised General Ordinances of the City of Newark. The fee for immobilization shall be seventy-five (\$75.00) dollars. Immediately after a vehicle is so removed, the Chief of Police or such member acting for him/her shall notify the registered and legal owner in writing, by personal service or by registered mail at the last known address of the owner of the removal of such vehicle. After the vehicle has been in the possession of the Division of Police for thirty (30) days and the owner is unknown and cannot be found or refuses to receive such vehicle, the Director of the Department of Public Safety may proceed to sell such vehicle in accordance with the provisions of the laws of the State.

b. 1. Pursuant to N.J.S.A. 39:4-139.2, the Parking Offenses Adjudication Act, the City of Newark has the authority to make, amend, repeal and enforce an Ordinance authorizing the impoundment or immobilization of motor vehicles found within the Municipality if there are any outstanding warrants against auto vehicles. The City of Newark hereby exercises this authority and delegates to the Newark Division of Police and/or its agents within the City of Newark if there are outstanding warrants against such vehicles.

2. Except for vehicles owned by lessors who have complied with the provisions of the act respecting lessors, if any outstanding warrants are not paid by midnight of the 30th day, following the day on which the vehicle was impounded or immobilized, the vehicle may be sold at public auction. The City shall give notice of the sale by certified mail to the owner, if his or her name and address is known, and to the holder of any security interest noted on the files of the sale in a form prescribed by the Motor Vehicles Commission by publication of public notice at least five (5) days in advance of the date of sale. Publication shall be in one (1) or more of the official newspapers of the City, which newspapers are established by annual resolution of the Governing Body.

3.
